FRIENDS OF SHEBA MEDICAL CENTER, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2019

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

Friends of Sheba Medical Center, Inc. (FSMC) is a nonprofit organization based in Los Angeles, California. Sheba Medical Center at Tel HaShomer is the largest hospital in Israel and the entire Middle East. FSMC is dedicated to raising awareness and philanthropic support for Sheba Medical Center's compassionate clinical care, cutting edge research and comprehensive educational training.

Basis of Accounting

The financial statements of FSMC have been prepared on the accrual basis of accounting and accordingly reflect all significant receivables, payables and other liabilities.

Basis of Presentation

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. These standards require that FSMC report information regarding its financial position and activities according to two classes of net assets: without donor restrictions and with donor restrictions.

Net Assets Without Donor Restrictions – Net assets available for use in general operations and not subject to donor (or certain grantor) restrictions.

Net Assets With Donor Restrictions – Net assets subject to donor- (or certain grantor-) imposed restrictions. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor-imposed restrictions are perpetual in nature, where the donor stipulates that resources be maintained in perpetuity. Gifts of long-lived assets and gifts of cash restricted for the acquisition of long-lived assets are recognized as revenue when the assets are placed in service. Donor-imposed restrictions are released when a restriction expires, that is, when the stipulated time has elapsed, when the stipulated purpose for which the resource was restricted has been fulfilled, or both.

Pledges Receivable

Pledges receivable are expected to be collected in full by FSMC's management. Therefore, no allowance for doubtful accounts has been established.

Advertising

Advertising costs are charged to operations when incurred and are included in functional expenses.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Cash and Cash Equivalents

For the purposes of the financial statement, FSMC considers all highly liquid debt instruments purchased with a maturity date of three months or less to be cash equivalents.

Contributions

In accordance with accounting principles generally accepted in the United States of America, contributions received are recorded as without donor restrictions or with donor restrictions depending on the existence and/or nature of any donor limitations on the use of the support. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the consolidated statement of activities as net assets released from restrictions.

FSMC recognizes contributions when cash, securities or other assets; an unconditional promise to give; or a notification of a beneficial interest is received. Conditional promises to give - that is, those with a measurable performance or other barrier and a right of return - are not recognized until the conditions on which they depend have been met. At December 31, 2019, contributions of \$666,666, have not been recognized in the accompanying statement of activities because the condition on which they depend has not yet been met.

Donated Services and Materials

FSMC recognizes as support only those donated services which create or enhance nonfinancial assets or which require specialized skills which FSMC would otherwise have paid for. Donated materials are recognized as contributions at their fair values at the date of donation. No amounts have been reflected in the financial statements for donated services or materials as of December 31, 2019.

Functional Allocation of Expenses

The costs of providing programs and supporting services have been summarized on a functional basis in the statement of activities and in the statement of functional expenses. Accordingly, salaries, occupancy, office expenses, travel and information technology have been allocated between programs and supporting services based upon time and effort.

Property and Equipment

Property and equipment are recorded at historical cost and are being depreciated using the straight-line method over the estimated useful life of the assets. The following lives have been issued.

Computers and Equipment	5 Years
Furniture	5 Years

Expenditures for maintenance, repairs, and renewals of minor items are charged to expense as incurred. Major renewals and improvements are capitalized. Upon disposition, the cost and related accumulated depreciation are removed from the accounts and the resulting gain or loss is reflected in operations for the period.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Tax Status

FSMC is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code, and is exempt from California franchise taxes under Section 23701(d) of the State Revenue and Taxation Code.

FSMC files Internal Revenue Service Form 990 and State Forms 199 and RRF-1. Accounting principles generally accepted in the United States of America provide accounting and disclosure guidance about positions taken by an organization in its tax returns that might be uncertain. FSMC recognizes the effect of income tax positions only if those positions are more likely than not of being sustained. Management of FSMC does not believe the financial statements include any uncertain tax positions.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Adoption of New Accounting Standard

In 2019, FSMC adopted Financial Accounting Standards Board's Accounting Standard (ASU) 2018-08, Accounting Guidance for Contributions Received and Made. This ASU was issued to clarify accounting guidance for contributions received and contributions made. The amendments to this ASU assists entities in (1) evaluating whether transactions should be accounted for as contributions (nonreciprocal transactions) within the scope of Topic 958, Not-for-Profit Entities, or as an exchange (reciprocal) transactions subject to the other guidance and (2) determining whether a contribution is conditional.

Subsequent Events

Management has evaluated subsequent events through August 10, 2020, the date the financial statements were available to be issued.

Subsequent to year-end, the World Health Organization declared the spread of Coronavirus Disease (COVID-19) a worldwide pandemic. The COVID-19 pandemic is having significant effects on global markets, supply chains, businesses, and communities. Specific to FSMC, COVID-19 may impact various parts of its 2020 operations and financial results, including grants. Management believes FSMC is taking appropriate actions to mitigate the negative impact. However, the full impact of COVID-19 is unknown and cannot be reasonably estimated as these events occurred subsequent to year-end and are still developing.

NOTE 5 INVESTMENTS AND FAIR VALUE MEASUREMENTS

Investments are as follows as of December 31, 2019:

Fixed Income	<u>\$ 52,500</u>
Total Investments	<u><u>\$ 52,500</u></u>

Generally accepted accounting principles establishes a framework for measuring fair value, and expands disclosure about fair value measurements. The standard provides a consistent definition of fair value which focuses on an exit price between market participants in an orderly transaction, prioritizes the use of market based information over entity specific information and establishes a three level hierarchy for fair value measurements based on the transparency of information used in the valuation of an asset or liability as of the measurement date.

Fair values determined by Level 1 inputs utilize quoted prices in active markets for identical assets. Fair values determined by Level 2 inputs utilize data points that are observable such as quoted prices, interest rates and yield curves. Fair values determined by Level 3 inputs are unobservable data points for the asset and include situations where there is little, if any, market activity for the asset.

	<u>Fair Value</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Fixed Income	<u>\$ 52,500</u>	<u>\$ -</u>	<u>\$ 52,500</u>	<u>\$ -</u>
Total	<u><u>\$ 52,500</u></u>	<u><u>\$ -</u></u>	<u><u>\$ 52,500</u></u>	<u><u>\$ -</u></u>

Fair values for investments are determined by reference to quoted market prices and other relevant information generated by market transactions.
